

The most effective and natural way to protect your garden from hungry animals.

Why granules are better than liquid

- Granules are less messy than liquids.
- Patented granule formula won't burn your plants like liquids can.
- Granules are "heavy." They won't wash away in rain like liquids can.
- Granules won't evaporate or freeze like liquid can.
- Granules are guaranteed to last longer than liquids.

Note: Granules are naturally moist for better "clinging."

MONEY-BACK GUARANTEE

Shake-Away® Small Critter Repellent Granules ingredients have been exempted by EPA from registration under FIFRA and are under FIFRA 25B classification.

:: Shake Away Small Critter Repellent Granules :: 100% organic repellent for squirrels, rabbits, skunks, chipmunks, woodchucks, gophers, possums, prairie dogs, groundhogs, and porcupines

135730

Effective, safe, 100% organic, natural repellent protects your garden from pest critters.

Granules are superior to liquid

- Less messy
- Patented formula won't burn your plants, bushes or trees like liquids can
- "Heavy" granules won't wash away in rain like liquids can - and they're naturally moist for better "clinging".
- Granules last longer and smell stronger than liquid, and won't evaporate or freeze like liquid

Apply twice a week (or after rain or snow) for the first two weeks, then twice a month for maintenance. Sprinkle lightly in and around areas where animals are causing damage, or in areas you want to protect. Allow up to two weeks for granules to take full effect.

COVERAGE: Each 20 oz. bottle will cover up to 600 linear feet when applied as directed.

Active Ingredient: Garlic Oil (1%)

Inert Ingredients: Calcium Carbonate, Urea, Water (99%)

To delay washing-away by rain and evaporation, use in a Garden Scentry repellent container

Shake-Away repellent granules have an odor that signals danger to small critters like squirrels, rabbits, skunks, chipmunks, woodchucks, gophers, possums, prairie dogs, groundhogs, porcupines and more
