

# HexArmor® 4018 Ultimate L5

138490

The HexArmor® 4018 Ultimate L5, the first and only ISEA Level 5 mechanic's glove, is the perfect solution for mechanics, millwrights, and industrial workers. This glove combines the comfort and dexterity of a mechanic's style gloves with added cut and puncture protection on the palm and fingers, and partial back of hand. In addition to ISEA Level 5 cut resistance, the highest rating on the ISEA guideline, the HexArmor® 4018 Ultimate L5 has high puncture resistance. A layer of synthetic leather is added to the palm for grease and oil grip. Gloves are machine washable.
