

Item # 3900 MAX/MIN DIAL THERMOMETER

- Dual scale with max/min feature.
- Replaces mercury alternatives.
- Bi-metal sensor.

Three distinct arrows display max, min, and current temperatures. Unit features durable white plastic casing, color-coded dual scales and reset knob. The reset knob allows for fast, easy and accurate repeat readings. Freestanding or wall mountable. Easy to use and requires no batteries. 100% safe, non-mercury, rugged construction.

Required in these GLOBE protocols :

- Maximum/Minimum and Current Temperatures.
- Air Temperature.
