## Put It Anywhere. See Anything.

Packaged with magnetic clip holder for mounting and positioning light

This super-bright, powerful light goes where no light has gone before. You can twist & turn the tough PVC-coated cable into any position to see almost anywhere. The magnetic clip allows you to attach the light to any metal surface to illuminate your work area.

- 1-watt, 50,000 hour "Luxeon® Star" LED provides up to 24 lumens of light
- Flexible, durable cable makes it easy to point the light in any direction

- Runs up to 3 hours at maximum intensity (1.5 hrs. additional declining useable output)
- Push-button tailcap for steady on and momentary on/off operation
- Magnetic clip holder included
- Powered by 2 "AA" size alkaline batteries, included in package
- 6.30 ounces
