

Capture Cam

The Capture Cam is a simple, portable, easy to use all in one device to monitor areas where up to 15,000 digital pictures or video can be recorded and stored internally and played back on any standard television video inputs. There are three image quality levels; low, medium, and high. Time/day stamping is embedded on each image for quick and easy review. In the event of an electrical outage, the unit will automatically start recording. The unit is equipped with adjustable motion sensitivity, record interval, number of pictures per record interval, and image overwriting are just a few of the many features of this tiny device. The Capture Cam's small size allows easy undetected placement in your home or office. If you are afraid to learn and use the new DVR technology or just don't need the complexity of them, this can be the quick simple easy to use verification device for you.

- . Portable Use and Compact Size
- . Built-in Hi-Resolution Color Camera
- . Continuous and Motion Detection Recording
- . Three Level Image Quality Adjustable
- . Built-in Flash Memory
- . User-Friendly Rear Panel Design
- . DC12V or 4xAA Batteries

(4xAA Batteries are used only for temporary 4 hour recording or playback)

Storage Capacity

Approximate Unit: Pictures

Quality Level	640x480	320x240
High	4,000	9,000
Medium	5,200	12,000
Low	6,400	15,000

Image Device	1/4" Color CMOS Sensor
Lens Furnished	Cone Lens 3.7mm / F2.0
Recording: Resolution	VGA (640x480) / QVGA (320x240)
Recording: Quality	High / Medium / Low
Recording: Mode	Continuous, Motion Detection
Recording: Interval	10 sec / 5 sec / 3 sec / 2 sec / 1 FPS / 2 FPS / 4 FPS / 6 FPS / 8 FPS / Max.
Memory Full	Selectable Function: Full Stop / Overwrite
Playback Mode	Forward / Rewind: x1 / x4 / x8 / x16, Pause and Stop
Search Method	By Date, Time
Motion Detection	Full Screen / Adjustable Detection Sensitivity Rate 1-99
On Screen Display	Mode / Date / Time / Status / Set-up Menu
Power Supply	DC12V/AC110V or 4xAA Batteries
