

151386

Brand : SKYWATCH
Model : Xplorer 4
Type : Anemo-thermometer with electronic compass and pressure/altitude functions
Dimensions : 41 x 93 x 17 mm
Weight : Approx. 50 grammes
Indicative price : USD 137.00 ex-VAT

NEW!
with **BACKLIGHT**

Features :

9 modes :

1. Instant windspeed measurement with 'max' speed reached displayed
2. Instant windspeed measurement with current temperature displayed
3. Instant windspeed measurement with wind chill factor displayed
4. Instant windspeed measurement with compass in degree
5. Instant windspeed measurement with altitude displayed
6. Instant windspeed measurement with relative pressure (QNH) or absolute pressure.
7. History of pressure (tendencies)
8. History of relative pressure (QNH)
9. History of absolute pressure (QFE)

TECHNICAL SPECIFICATIONS :

WIND

Units : km/h, mph, m/s, fps and knots
Resolution : 0.1 unit
Measuring cycle : 2 measurements per second
Precision : +/- 3 %
Measuring range : from 0 to 150 km/h

TEMPERATURE

Units : °C and °F
Resolution : 0.1 unit
Measuring cycle : one measurement every 0.5 seconds
Precision : +/- 0.3°C
Measuring range : from -50°C to 100°C

COMPASS :

Unit : degrees
Resolution : 1 degree
Precision : +/- 4 degrees

Measurement : vertical position

Easy calibration !

ALTITUDE :

Units : m (metre) and ft (feet)

Resolution : 1 m / 3 ft

Precision : +/- 10 metres

Measuring range : from -700 to +9'000 metres

ABSOLUTE & RELATIVE PRESSURE :

Units : hPa (heco Pascals) & inHg (inches of mercury)

Precision : +/- 1 hPa

RECORDING MODES

They display under different forms, one of the 48 pressure measurements stored each hour.

OTHER

- Backlight
- Weatherproof
- Replaceable lithium battery
- Auto-off after 1 minute
- Warranty : 1 year
