

**PIRIT**  
HEATED HOSE

167708

## How it Works

PIRIT® Hoses have electrical cord sets attached to them which, when plugged in, activate the heating element which is built into the hose material. The 50 ft, 5/8" PIRIT® Heated Hoses and the 25 ft, 5/8" PIRIT® Heated Hoses are made with PVC material which is FDA-approved for potable water, and are knit-re-enforced with high-quality brass fittings.

The PIRIT™ Water Line is the only heated hose on the market today that has been certified to UL and CSA safety standards for outdoor electronic products.
