NUTRI-MAX® SOW FEEDER

*THE LARGEST FEED OPENING AVAILABLE GIVES YOU CONTENTED,
COMFORTABLE SOWS AND NON-WASTEFUL FEEDING*

24 lb. (10.9 Kg) capacity
hopper 7" (17.8 cm) deep,
16" (40.6 cm) wide
14" (35.6 cm) tall

The largest feed opening available. 16" (40.6 cm) of internal width and 17" (43.2 cm) of vertical height -- plenty of space to allow sow to comfortable eat and swallow with her mouth in the feeder. No twisting, turning nor tossing of feed.

Our Pride famous cast iron frame is rugged but with a smooth, no snag finish.

Sows can rub through stainless steel edges causing abrasions and cuts. Your animals cannot cut themselves on cast iron.

Tapered lip assures complete drainage after cleaning with high-pressure washer.

Pride-Tuff high molecular, high density, polyethylene body.

12 gauge stainless attachment plates permit feeder to tip out for easy cleaning.

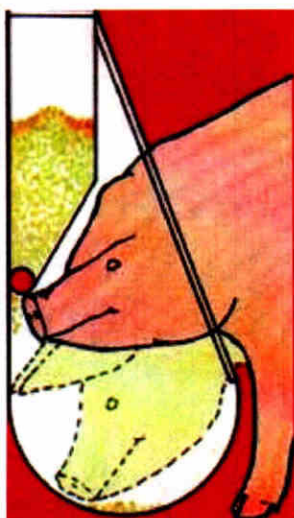

Feed is easily accessible to the sow; no accumulation and no spoilage.

NO SHARP EDGES * NO PROTRUDING NUTS AND BOLTS

Sow Friendly Feed Dispenser

Sow pushes on dispenser rings with her nose

Our Push Button Valve Model SN1530, can be mounted inside the feeder. It is mounted on either the

dropping one or two cups of feed into the trough. When sow is not pushing on the rings, the hopper is sealed. Dispenser slows down impatient sows.

Feeder can be ordered without the dispenser (Model F1ELDA).

right or left side, secured by two modified attachment plates. Order F1EW and SN1530.

CR410 Gate comes standard with a bracket for use with Model SN9340 sow nipple bracket and Model SN1180 sow nipple.

84101

Model No.	Width	Height	Depth	Weight
F1E - Sow Feeder	16" (41 cm)	32" (81 cm)	16" (41 cm)	22 lbs. (10 kg)
