- Bury Flush With Ground For Easy Mowing
- Rodents Are Chased Away Unharmd
- Does Not Effect Pets
- Laboratory Tested And Approved
- Convenient Battery Charge Cylinder
- 100% Waterproof

No more poisons and traps around your pets and children. The original Sonic Molechaser® is the most humane and environmentally friendly way of keeping gardens and lawns free of moles, voles, gophers, shrews and other destructive ground rodents. Tested and approved by consumer groups and a U.S. certified laboratory, the Sonic Molechaser® is a proven problem solver. This ingenious device produces a penetrating underground sonic pulse of 300 Hz at 15 second intervals, covering up to 11,250 square feet. Pets won't be affected but rodents find the noise intolerable and are sent scurrying away. Constructed from a single billet of aluminum, the unit's discreet green-colored control head is watertight and can be buried flush with the lawn, so it does not detract from the appearance of your lawn or garden. A patented cylinder allows convenient battery change without removing the unit from the soil. A lifetime warranty guarantees that your lawn or garden will be rodent free forever.

Model..... P7900
 Power..... 6V DC
 Battery4 X D alkaline batteries
 Battery Life4-6 months
 Weight 9 oz.
 Dimensions..... 16" X 1 3/4"
 Frequency..... 300 Hz
 Duty Cycle 15 seconds
 Coverage 11,250 sq. feet (1/4 Acre)
 U.S. Patent Number5205066

Master Carton Quantity36
 Master Carton Size.....22 1/2" X 10 1/2" X 18"
 Master Carton Weight..... 36 lb.
