

GEMPLER'S[®]

SPILL RESPONSE

PAK 1

Convenient, Lightweight, Easy-to-use,
First Response Spill Control

PAK 1 includes . . .

- Enough sorbent material to contain a 17-gallon spill of hazardous or potentially hazardous materials
- Chemical-resistant Tychem[®] QC suit, gloves and goggles to protect personnel from many harmful chemicals
- Hazardous Spill Sign
- Poly Disposal Bag

IMPORTANT INFORMATION . . . read before using PAK 1

Consult the attached information to help assess the suitability of each item in the pack to your particular situation.

Because this Spill Response Pak could be used in many situations, no one respiratory protective device applicable to all situations can be supplied. However, proper respiratory protection is a major concern in any spill situation. Each user must determine the need for such protection.

Please note that the disposal bag supplied in the pack is for temporary holding only and should not be used as a final disposal container. If pack contents are used to clean up spills of hazardous materials, they must be disposed of properly and in accordance with all applicable federal, state and local regulations.

The user of this Spill Response Pak should be familiar with the Occupational Safety and Health Administration (OSHA) standards for hazardous waste operations and emergency response (29 CFR 1910.120).
